

# This New Millennium, Gift Everyone Some Safe Water To Drink.

## IF SO, JOIN ONE DOLLAR REVOLUTION

Every 3 seconds, a person dies of drinking contaminated water somewhere on earth. It is the largest human killer ever known, claiming the precious lives of 25 thousand people a day!

One among every 5 of us is obliged to drink water, fouled by human and animal excreta. Result: It breeds 80 per cent of human illnesses. Almost half of the human population is suffering from waterborne diseases, says WHO.

Nearly 2 billion people in the least developed countries will enter the 21st century without access to safe water. And they will live in more desperate poverty and poorer health than those who have.

Safe Water for the Poor (SWFP) is a global movement of some 16 thousand volunteers under the aegis of Global Initiatives for Sustainable Development and Humanitarian Action (GI). The movement has, so far, helped more than 300,000 people ensure safe water themselves. Their mission—Safe Water for All.

SWFP has a broad vision of making access to safe water : as a basic human right and a transformation tool; as the entry point to alleviating

poverty, empowering women, safeguarding public health, conserving the natural resources, uplifting economically through savings. And a path towards demolishing untouchability, and promoting equality, equity and peace.

Prevention of water-related deaths lies in your pocket. SWFP has successfully demonstrated at the community level that merely a single dollar is adequate to protect the life of a person in underdeveloped countries for an entire year. As little investment as 0.0027 cents a day a person! The scheme is christened ONE DOLLAR REVOLUTION.
